

*Electromagnetic Locks  
And Request-To-Exit Buttons –  
The High Quality And High Value  
You've Come To Expect From Alarm Lock*

---

**ALARM LOCK**

*PowerMags & PowerExits*

## POWEREXIT™ FEATURES

### ELECTROMAGNETIC LOCKS:

- Strong holding force of 600 and 1200 lb. models
- Provides worry-free egress in any emergency as soon as the power is cut off
- Perfect for both single and double doors and even sliding doors
- Locks can be installed in under one hour with just four easy steps
- With no moving parts, there is little maintenance and virtually no erosion
- Low voltage (12 or 24VDC); including field-selectable models
- Double door models with 1200 lb. locking per side (PM1200SLB1 and -40)
- Low current draw (200mA to 425mA current)
- Choice of US28 or US40 finish (most models)

## POWEREXIT™ FEATURES

### REQUEST-TO-EXIT PUSH BUTTONS:

- PowerExit Push Buttons come in five models, with and without illuminated buttons
- All models have solid aluminum anodized finish US28
- Sizes: 3" x 4 3/4" x 1/4" and 1 5/8" x 4 3/4" x 1/4"
- Back Depth: 1 1/4" and 1 7/8"
- Switch Rating: 250V AC 5A
- Momentary Action
